

Powerful, Compatible, Affordable

- Offering standard Office applications with a very familiar and easy-to-use interface.
- Ideally suited to the needs of small and medium businesses, students and home users.
- Fully featured and industry standard – no re-training necessary.
- Loads from and saves to MS Word®, MS Excel®, MS PowerPoint® and MS Access® files.
- Resource-thrifty small footprint so system performance is maximised.
- Extra useful features such as PDF creation within all relevant applications.

Awards

“ Compared with Microsoft Office, Ability Office is superb value. ”
Computer Shopper

“ Ability Office leads the pack when it comes to value for money. It looks good and is easy to use too. If you're after a competent, sturdy suite... this is an excellent choice. ”
PC Pro

“ Ability gives you an awful lot for your money. ”
Computer Buyer

“ A fast, flexible and very powerful office suite for less than 30 quid. Fantastic! ”
.Net

“ Anyone who has used MS Office will immediately feel at home with Ability... it offers such a comprehensive collection of Office software applications at an incredibly reasonable price. ”
Micro Mart 'Highly Commended'

“ There's no need to worry about compatibility... compared to Microsoft Office, it's an absolute bargain. ”
Web User

“ All in all a fantastic package that I would confidently recommend to all computer users... it has everything you could ever want. ”
Smart Computing

Ability Office

Up to seven great applications in one powerful, compatible, fully-featured and above all affordable office suite – the easy-to-use alternative to MS Office®.

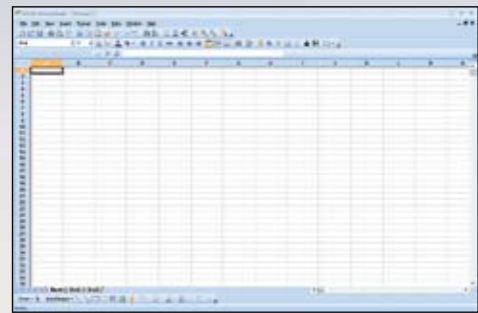

Ability Office

Get straight to work with this fully featured easy-to-use and above all affordable office suite, ideal for use in the office, in college, at home or at school. Get the applications you really need...

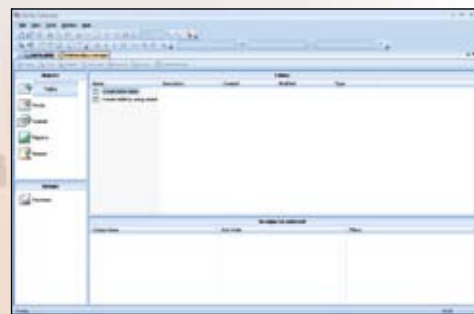

■ Write

Word processing software, compatible with MS Word®. Includes advanced layout features such as tables, columns, frames, WriteFX text objects, plus advanced editing features such as AutoSpell (red underlining), AutoCorrect and AutoText, grammar checker and mail merge from MS Access®.

■ Spreadsheet

Numerical analysis software, compatible with MS Excel®. Includes multi-sheet workbooks, templates & styles, AutoSpell (red underlining), AutoCorrect and AutoText, grammar checker, print to fit, hide/show rows/columns, data filtering, 240+ functions, 3D cell referencing, conditional formatting, data entry validation, merge/split cells, WriteFX text objects.

■ Database

Data management software, compatible with MS Access® data tables and queries. Includes single click automatic form and report creation, component based querying (column views, sort orders, filter selection) and VB Script macros.

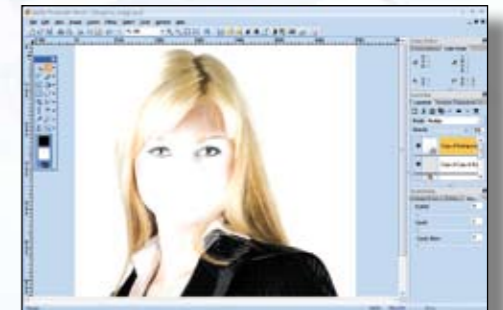

■ Presentation

Slide show software, compatible with MS PowerPoint®. Includes a variety of slide templates and slide transitions, plus a library of autoshapes. Allows sophisticated slide background design and master slides for uniform presentations.

■ Photopaint

Photo and image editor that will instantly feel familiar, both in its interface and functionality, to users of Adobe Photoshop. Its fundamental components are paint tools, color palettes, brushes, selections, special effects filters and layers. Using these features together, you can apply the right color, or range of colors, in the right place to get the effect you want.

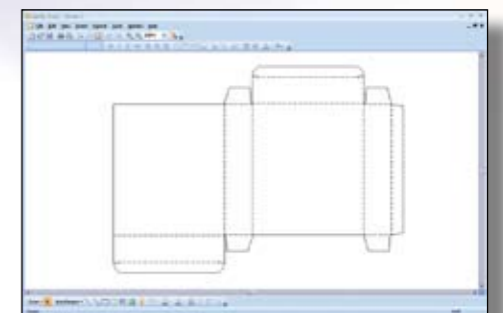

■ Photoalbum

A user-friendly image organiser that lets users store and easily locate their digital photos and other images, supporting all the common formats. This application features a multi-window interface, displaying a clear outline of folders, albums and favourites, file lists with property pages, and choices of full screen or thumbnail views of all pictures in a selected folder or album.

■ Draw

Object design and layout software that utilises vector objects and enables you to design logos and insert pictures. Save your designs to jpeg or Adobe® PDF.

...all in one box
