

Ability

Graphics

Photos & Presentations

A complete graphics, photo-editing and presentation suite for the home or office. Edit, improve and catalogue all types of images, including photos uploaded from digital cameras and images imported from standard scanners.

■ Photopaint

A powerful yet easy-to-use photo and image editor that is compatible with Adobe® PhotoShop *.psd files and all other major image formats. The intuitive user interface gives instant access to a number of essential tools, such as colour palettes, brushes, selections, special effects filters and layers – in fact, everything you'll need to retouch and restyle photographs, or create and edit the highest quality graphics.

■ Presentation

Whether you're designing a professional-looking presentation or simply putting together a slideshow of photos, it's all so easy to achieve with Ability Presentation. The familiar and user-friendly interface, wide range of visual and text effects immediately enable your creativity. Compatible with MS Powerpoint® *.ppt files and a must for home users, schoolchildren, students and professionals alike.

■ Photoalbum

No more time wasted hunting for that photo or image on your hard drive. Photoalbum is an electronic album that catalogues and manages all your photos and other graphics images on your PC, letting you locate the ones you need within moments. Featuring a simple multi-window interface to display your folders, albums and favourites, with a choice of fullscreen views, thumbnail views or even rolling slideshows.

■ Draw

A vector-based line drawing and layout application. Use the inbuilt drawing tools to access lines, rectangles, curves and more, or go freehand and create your own designs. Ideal for creating your own logos and clip art, planning room layouts, or adding effects to photographs and presentations.

Ability

Internet Security

A complete and comprehensive security solution, offering total online protection against all types of threats with a special emphasis placed on identity theft and cyber-crime. All features are automatic, allowing users to enjoy the Internet with complete peace of mind.

■ Full protection against malware

Based on Panda Security's award-winning technology, Ability Internet Security is proven to protect. Its advanced antivirus, antispymware, antiphishing and antirootkit technologies are backed up by advanced behavioural analysis of unknown and suspicious files. In addition, a robust and fully configurable firewall further protects your system online.

■ Automated backup, including free online storage

Safeguard your files against accidental loss or damage with Ability Internet Security's automated backup utility. Choose to back up to local media or securely online (with 2GB of free online storage). You need never lose any of your important information.

■ Optimised PC system performance

Ability Internet Security's Optimisation routine cleans out all unnecessary contents and components (removing cookies, temporary files, items in the recycle bin, etc.) and defragments the hard disk, maximising the performance of your computer.

■ Identity protection

If you shop or bank online, your most sensitive data, such as account names and numbers, addresses, credit card numbers, needs particular protection. The inbuilt Identity Protect feature lets you know before this type of data is about to be released from your computer. You are in control at all times.

■ Web Content Control

If you're worried about your family's use of the Internet, or your employees wasting valuable time visiting websites unrelated to work, Ability Internet Security has the solution. Its content control feature lets you select what type of web pages each user of a computer can view, with a range of custom filters. You decide how the Internet should be used.

Ability Office Business

Seven fully featured applications in one affordable, powerful and, above all, compatible office suite, specifically designed for the needs of businesses everywhere. Get straight to work via Ability Office's completely familiar user interface. Load from and save to MS *.doc, *.xls, *.ppt and *.mdb files, Adobe® PhotoShop *.psd files, plus all other mainstream graphical formats with Ability Office Business – the cost-effective and easy-to-use alternative to MS Office®.

- **Write – MS Word® compatible word processing**
 Gives you everything you need to create, edit and produce better-looking letters, reports, quotations, memos, mailings and newsletters. Write has all the features that you would expect from any top quality word processor – spell checker and thesaurus, bulleted and numbered lists, frames, tables, autocorrect, autospell, headers and footers, numerous paragraph and font options, interactive rulers, intelligent drag and drop editing, short-cut menus for easy text revision, the capacity to include graphics, spreadsheets and charts, plus a whole host of other essential features. Write also supports a wide range of file formats for export and import,
- **Spreadsheet – MS Excel® compatible spreadsheet**
 The perfect tool for managing all your numerical data, whether business information, home finances, complicated calculations or homework problems. To help you make sense of your figures, Ability incorporates all the essential elements users need from a spreadsheet program, as well as a range of advanced features – such as pivot tables and macros – to make working with numerical data as easy and clear as possible.
- **Database – MS Access® compatible database**
 A powerful data management system that is perfect for storing and analysing structured data or information, including address books, inventories, customer and product lists, medical records, and any other data that can be usefully tabulated.
- **Presentation – MS Powerpoint® compatible slideshow presentation**
 The ideal application for creating professional slideshow presentations, with a wide range of visual and text effects ensuring that your message is delivered with maximum impact. Make your presentations as simple or as sophisticated as you need with the combination of Ability's familiar design interface and rich creative feature set enabling production of the highest quality presentations..
- **Photopaint – Adobe® Photoshop compatible photo and graphics editor**
 A feature-rich photo and image editor that will instantly feel familiar, both in interface and functionality, to users of Adobe® Photoshop. Its fundamental components include paint tools, colour palettes, brushes, selections, special effects filters and layers, delivering you the ability to create the exact graphical effects and edits required.
- **Photoalbum – Digital image organiser**
 This user-friendly image organiser lets users store and easily locate their digital photos and other images, with all major graphical formats supported. Featuring a multi-window interface, Photoalbum displays a clear outline of folders, albums and favourites, file lists with property pages, and choices of thumbnail, full screen or rolling slideshow views of all pictures in any selected folder or album.
- **Draw - Vector-based line drawing and layout software**
 Object design and layout software utilising vector objects, enabling you to create your own vector-based designs for use as logos or clip art.

As a major added benefit, universally accepted Adobe® PDF files can be created with one click from within all relevant applications, allowing secure delivery of original documents and making it quick and easy to publish documents online.

Ability Office Home

Ability Office Home offers six core applications. Perfect for working from home, allowing files to be edited and exchanged with those back in the office, and absolutely ideal for students and schoolchildren.

- Includes:**
- Write ■ Spreadsheet ■ Presentation
 - Photopaint ■ Photoalbum ■ Draw

Ability Business Planner

Setting up or expanding your business, but not sure where to start? Specifically developed for entrepreneurs and start-ups by small business owners and experts, Ability Business Planner will guide you through every step of the business planning process with plain English hints, tips and advice based on proven business practice. No prior business expertise is required - just answer the prompted questions and Ability Business planner does the rest.

■ Financial projections

In just minutes, Ability Business Planner helps you build a comprehensive set of financial projections, complete with reports and charts, so you'll not only know if your idea will make money, but when it will make money.

■ Business Planning Simplified

Unlike using spreadsheets, you won't have to deal with complicated calculations, create formulas, or design and build reports or graphs – Ability Business Planner does it all for you, creating P&Ls, Cash Flow Plans, Balance Sheets and more. Simply enter your text and combine it with your financials to produce the ultimate winning business plan.

■ Wide selection of pre-written templates

Ability Business Planner includes over 1,000 business plan excerpts and 25 complete sample business plans ready to edit. Simply choose from the pre-written templates to get your business plan completed with the minimum of effort.

■ Recommended format

Ability Business Planner prepares your business plan using recommended formats preferred by banks and other lending institutions, ensuring that any presentations you need to make are best suited to purpose.

Ability Appointment Manager

Book appointments faster with Ability Appointment Manager scheduling software. The on-screen calendar lets you see what slots are available for both customers and staff, so you won't ever have to make customers wait in silence while you flip through a paper-based appointment book.

■ Efficient, fast and simple

Easily find available appointment times so you can book more business. Quickly add or locate customer details with point-and-click navigation, intuitive layout and day/week/month views giving you easy access to all information, and most importantly making sure you never double-book.

■ Waiting List

Maximise efficiency and slot customers into available openings with Ability Appointment Manager's waiting list, which lets you instantly see which pending appointment requests can be scheduled. All the information you need to confirm an appointment with your customer is at your fingertips, so you can accommodate more requests and so generate more business. The on-screen waiting list even reminds you to take action on expired appointment requests.

■ E-mail appointment reminders

Save your business money by e-mailing your customers appointment reminders, reducing the number of no-shows, short-term cancellations or rescheduled appointments.

■ Reports

Produce reports to provide you the information you need about your business. Generate reports, track client history and more. Print or export your appointment calendar and reports in various formats, including PDF and HTML.

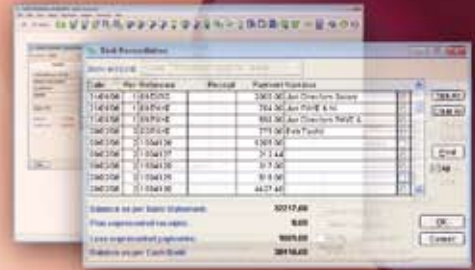

■ Flexible with multi-user licenses available

If more than one member of staff needs access to Ability Appointment Manager, simply upgrade to a multi-user license and allow others to create, schedule and edit appointments from any networked PC.

Ability Accounts Small Business

The easy-to-use accounting solution designed specifically for small and start-up businesses, enabling accounts to be completed quickly, multiple bank accounts to be reconciled easily and VAT returns to be prepared in a matter of minutes.

■ Feature-rich yet easy to use

Ability Accounts is easy both to install and use. The comprehensive online reference guide walks you quickly and simply through essential tasks such as the production of invoices with automatic product pricing and VAT-inclusive options. A total of 33 easy-to-read preset reports are instantly available, showing you the financial status of your business at the simple click of a button.

■ Real-time integrated accounting

Ability Accounts delivers real-time and fully integrated accounting, with all relevant records being instantly updated as new data is entered. This allows immediate views of your financial position and the performance of your business, with further reporting on your customer, supplier and product records. It also ensures that all essential business information, such as bank balances and VAT liability, is always up to date.

■ VAT accounting

Ability Accounts fully supports both Cash Accounting and Invoice Accounting schemes for analysis of VAT reporting. It correctly handles thresholds and transition in either direction between the two basic schemes and can also accommodate other VAT options (Flat Rate scheme, Retail scheme, Annual Accounting etc.)

■ At-a-glance management overviews

Displays current balances for debtors, creditors, bank and VAT with drill-down to all underlying transactions.

■ Multi-User Capability

Upgrade to a multi-user license and allow concurrent users to view and update accounts information from any networked PC.

Ability Staff Files

Bringing maximum ease and efficiency to managing employee information and delivering a flexible Human Resource Information System to simplify the way you manage your staff records. Quick-tab navigation lets you track all your personnel information in one location instead of sifting through folders and filing cabinets.

■ Easily access all employee information in one place

Store personnel and employment information including names, addresses, home and work phone numbers and employment start date, and retrieve at the click of a button

■ Create reports and templates

Ability Staff Files has 23 predefined reports that present all employee information already stored within the program. Print professional-looking reports for individual employees, or a full staff report.

■ Publish and mail letters

Includes 34 letter templates. Create, Edit and Publish Letters features allow you to create and send employee correspondence quickly and efficiently.

■ Keep track of holidays, accruals and time off

Ability Staff Files provides answers to questions such as "How many days holiday do I have remaining?" right at your fingertips. The Accruals tab tracks sick days, holidays taken, and any other user-defined time accruals, showing hours accrued, hours taken, and balances remaining.

■ Keep personal information and documents safe and secure

Scan and save electronic copies of paper documents – passports, applications, CV's, photos etc – for later retrieval within Ability Staff Files. Safeguard all your critical employee data – staff evaluations, records of training history and emergency details – with multi-level passwords providing either read-only or full data entry rights.

■ Multi-User Licenses Available

Does more than one person need access to Ability Staff Files? Upgrade to a multi-user license and allow others to view or edit employee information from any networked PC.
